LEGEND SERIES

KING

VIBRATING THRUSTER

Design Inspiration

The design inspiration of the flagship product of ZALO Legend series KING, is derived from the the golden mask of the ancient Egyptian King, symbolizing conquest, power and irresistible magic.

The whole-body line design is like the majestic King, standing there with perseverance. The design of the golden decoration on the top carries the culture of the ancient Egyptian King's crown, using the unique elements of eagle and cobra for decoration. The shape of a lotus flower is designed in combination with the scales of the eagle and cobra, which not only has a beautiful appearance, but also carries the ancient God culture.

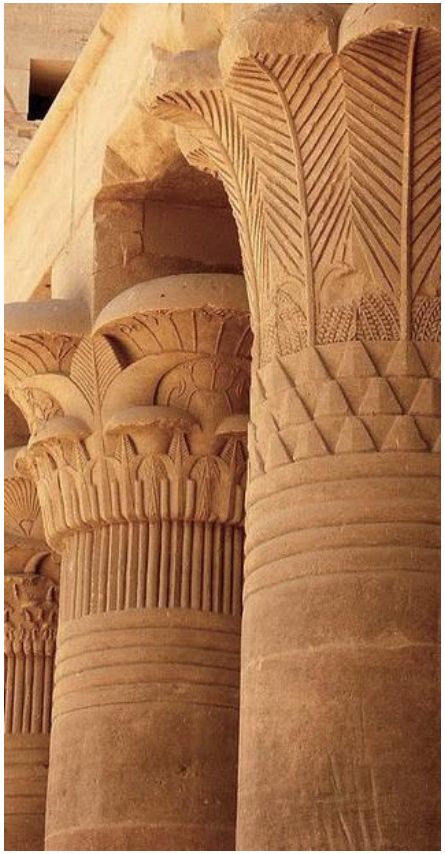

The buttons of the product are also designed with the lotus symbol of Egypt. The power button is an unblooming lotus, and the plus and minus buttons is derived from the lotus petals.

The head part of KING applies the water waves as design elements. The interlaced curves provide sufficient tensile conditions to give the most powerful function.
